

Notice of Annual Update to the Generation Resource Recovery Rider with the North Dakota Public Service Commission

On November 1, 2024, Montana-Dakota Utilities Co. (Montana-Dakota) filed its application with the North Dakota Public Service Commission (Commission) to update its Generation Resource Recovery Rider (GRRR) rates in accordance with the Company's Generation Resource Recovery Rider Adjustment Rate 56 tariff that states the rates will be revised annually to reflect the most recent projected costs to be recovered.

Montana-Dakota has requested the proposed GRRR rates be effective with service rendered on and after February 1, 2025, subject to Commission review and approval. This change is only being proposed at this time and, if rates are suspended by the Commission, the new rates will not be effective until Commission action has been taken.

If approved, a typical residential customer using 800 kWh will see an increase of \$0.08 per month or an increase of \$0.96 annually. The GRRR is shown as a separate line item on your bill.

Annual Update to the Generation Resource Recovery Rider (Cont.)

Notice of Annual Update to the Renewable Resource Cost Adjustment with the North Dakota Public Service Commission

On November 1, 2024, Montana-Dakota Utilities Co. (Montana-Dakota) filed an application with the North Dakota Public Service Commission (Commission) to update its Renewable Resource Cost Adjustment (RRCA) rates in accordance with the Company's Renewable Resource Cost Adjustment Rate 55 tariff that states the rates will be revised annually to reflect the most recent projected level of costs to be recovered.

The proposed Renewable Resource Cost Adjustment rates reflect North Dakota's allocation of the Company's investments in its three wind facilities (Diamond Willow, Cedar Hills, and Thunder Spirit) currently not being recovered through the Company's electric service rates and the amortization of the under-recovered RRCA balance through January 2025.

Montana-Dakota has requested the proposed RRCA rates be effective with service rendered on and after February 1, 2025, subject to Commission review and approval. This change is only being proposed at this time and, if rates are suspended by the Commission, the new rates will not be effective until Commission action has been taken.

If approved, a typical residential customer using 800 Kwh will see a decrease of \$1.14 per month, or \$13.68 annually. The RRCA is shown as a separate line item on your bill.
